"[The Board training] was really successful--and invigorating. I felt cohesion and energy that had been somewhat lacking recently. The session seemed well planned for and went along at a good clip, never lagging. And your enthusiasm and intelligence, as it has from the beginning, shined through. Thank you so much!"

"The [Board] training today was very well-done. I've been to a couple of these for other boards I've served on and, as well as ours being a very appealing project, the presentation, role-play, and materials today were really excellent in my opinion/experience."
